

# Personal Injury & Accident Claims

If you, your horse or another animal is injured through the fault of another party then it is important to find out from a Solicitor if you can bring a claim for compensation. Our team of lawyers specialise in the land based sector, with particular expertise in equine related issues. They can provide you with appropriate advice on injuries and losses arising from work, leisure, animal and land based accidents.

Reluctance to bring claims is often because victims forget that other people and organisations are likely to be insured, meaning their insurer will have to pay any damages awarded. Also, by highlighting accidents that have happened, improvements on safety standards are often introduced leading to a safer environment for others.

Your injury may be quite trivial, such as cuts and bruises etc, or could be more serious involving fractures and/or muscle damage. Successful claims may provide you with compensation for the following:

- Your pain and suffering.
- Your inability to ride again; to compete/show or look after your horse or other animal, even for a short period of time.
- No longer being able to work with horses, animals or in the land based sector.
- Your financial losses to include your medical and property expenses together with lost earnings, present and future.

## What if your horse or other animal is injured?

A successful claim may include compensation for the following:

- Reduction in the value of your horse or other animal.
- Vets', farrier and other animal medical expenses.
- Additional livery and/or accommodation costs.

Our specialist lawyers will work on your behalf on a no-win no-fee basis. Every claim receives attention to detail and you can look forward to receiving a full level of compensation depending on the level of injuries suffered by yourself, your horse or other animal.

For more information contact **Peter Johnson** at [epj@awdry.co.uk](mailto:epj@awdry.co.uk) or on **01249 815110** for an initial free interview to establish whether a claim is worth pursuing. You have nothing to lose.
